

■ MATHEUS DE OLIVEIRA RODRIGUES SALEH

Full Stack Developer · PHP/Laravel · Java/Spring Boot · Angular

Assis, SP, Brazil · Remote matheusxmg2@gmail.com linkedin.com/in/matheussaleh github.com/MatheusSaleh

SUMMARY

Full stack software engineer with a B.Sc. in Computer Science from FEMA. I work with Laravel, Spring Boot and Angular on logistics, payments and information security systems, with experience in e-commerce and shipping carrier integrations, technical leadership and Docker and CI/CD infrastructure.

EXPERIENCE

Junior PHP Laravel Developer · Clube Envios

Apr 2026 – present · Full-time · Remote

- Merchant and admin dashboards and shipping quote and tracking APIs (PHP 8, Laravel, Laminas, MySQL, Redis).
- Integrations with e-commerce platforms and ERPs (Shopify, Nuvemshop, Tray, Yampi, Bagy, Bling, Tiny, Irroba) and carriers (Correios, J&T Express, Latam Cargo).
- Built the Nuvemshop integration and published the app on the platform's app store, passing the shipping app review (checkout rates within 5 seconds and LGPD webhooks).
- Reverse logistics: did the Correios API research that guided the development.
- Boletto billing through the Banco Inter API; customer app in React Native.

Architect and Maintainer · TG Ops

2024 – present

- Mission-critical military administration system with Spring Boot, Angular, PostgreSQL and Redis.
- Infrastructure with Docker, Nginx, Cloudflare and CrowdSec, Grafana/Loki telemetry and AES-256-GCM encryption compliant with LGPD, Brazil's data protection law.

Tech Lead · FEMA

Nov 2023 – Nov 2025 · Part-time · On-site

- Spring Boot back-end and Angular front-end for the academic portal and an HR system (allowances, time tracking, overtime, vacations).
- Technical leadership and mentoring of interns, from requirements analysis to Sprint Review.

Software Development Intern · CEPEIN / FEMA

Sep 2022 – Nov 2025 · Part-time

- Developed and supported institutional and academic web solutions in an agile team.

EDUCATION

B.Sc. in Computer Science · FEMA — Fundação Educacional do Município de Assis (Brazil)

2022 – 2025

- Undergraduate thesis "Gamified Blood Donation System: Web and Mobile Platform for Blood Centers" (Hemogestão, in Portuguese), advised by Prof. Dr. Luiz Ricardo Begosso, approved with the top grade.

PROJECTS

Hemogestão (thesis, 2025): Angular + Spring Boot web system for blood centers and a gamified React Native donor app; WebSocket and RabbitMQ chat, Firebase push, JasperReports, Docker and GitHub Actions.

Order Microservices (2025): REST → gRPC → RabbitMQ with status in MongoDB, a Protocol Buffers contract and Docker Compose.

Crypto Wallet (2026): NestJS, Prisma and PostgreSQL API with JWT, an accounting ledger and idempotency; React dashboard; deployed with Docker, GitHub Actions and Render.

MilCode (2025): A military-themed programming language and its compiler, in Java (JFlex and CUP) and Python (Lark).

Expert System (2025): Car fault diagnosis with Spring Boot and the Drools rules engine.

PUBLICATIONS & ACTIVITIES

- Paper “The use of Dart and Flutter for game development in mobile apps” (in Portuguese), Proceedings of the XVI FEMA Scientific Forum (2023), with Gabriel Eduardo de Souza and Luiz Ricardo Begosso.
- Undergraduate research (2023): AppBancoDeSangue in Dart and Flutter, using gamification to engage blood donors.
- Spring Boot + Angular training for Software Engineering students (2024), with Gabriel Eduardo de Souza.

SKILLS

Back-end	PHP 8, Laravel, Laminas, Java, Spring Boot, Node.js, NestJS
Front-end & mobile	Angular, TypeScript, React, Next.js, Blade, Alpine.js, Tailwind, React Native (Expo), Flutter
Data & messaging	PostgreSQL, MySQL, MongoDB, Redis, RabbitMQ, gRPC
DevOps	Docker, Docker Compose, Nginx, GitHub Actions, Cloudflare, CrowdSec, Grafana
Integrations	REST, SOAP, webhooks, OAuth2, e-commerce platforms, shipping carriers, Banco Inter
Practices	Clean Architecture, DDD, TDD (JUnit, PHPUnit, Pest), Conventional Commits, Scrum
